Actions

- Use the Workshop Instructional model to embed the High Impact Teaching Strategies.
- Have learning intentions and success criteria clearly displayed in classrooms and refer to that during the task.
- Work with students to develop quality learning goals.
- All teachers will develop a shared understanding of and participate in classroom observations.

- Teachers will develop their understanding of student voice and agency.
- Teachers will complete professional learning in behaviour management support.
- Work with students to develop learning goals, learning intentions and success criteria.
- Be able to explain what student agency, student voice and student leadership are.
- Identify the link between student voice and agency and improved learning outcomes.
- Consistently implement a universal positive behaviour approach which is driven by student voice.
- Develop a rich, purposeful, engaging curriculum.
